

Ama Group Services (AGS)

INSPECTION - TECHNICAL ASSISTANCE - TRAINING

Efficiency in the control of risks for the satisfaction of the customer

Beyond the regulatory aspect, Ama Group Services assists companies in the certification of their equipment and facilities. AGS is also active in training of operators in various fields in order to provide the best safety driving techniques and safe habits with a view to mastering and limiting work-related risks.

AGS also advises and monitors the periodic regulatory inspections of its partners equipment and installations, notifies them of upcoming inspection deadlines.

Efficiency in risk management for customer satisfaction.

« Safety our priority »

SERVICES PROVIDED

- Commissioning and periodic inspection
- Commissioning of new equipment and installations
- Inspection of conformity according to particular specifications and standards
- Diagnosis of safety of work equipment (CE conformity or NON)
- Examination of equipment installation conditions in relation to the instruction manual
- Assistance in developing risk analysis and providing technical solutions
- Technical assistance for elevator modernization
- Training, evaluation of lifting equipment and construction machinery operators
- Thickness measurement
- Magnetic testing Level 2 & 3
- Penetrant testing Level 2 & 3
- Ultrasonic testing Level 2 & 3
- Etc ...

« Safety our priority »

REGULATORY INSPECTIONS

- Mechanical equipment
- Lifting equipment (cranes, forklift, trolleys, platforms, tower cranes, mobile cranes, accessories, etc ...)
- Mechanical transport equipment (lifts, elevators, etc.)
- Machines
- Port equipment (cranes, spreaders, trucks, reach stackers etc ...)

- Drilling machines, construction machines, mining machines, earthmoving, excavation machinery, etc ...
- Scaffolding
- Packing (offshore equipment and accessories)

- Lifelines and personal protective equipment (PPE) (harness etc ...)
- Storage racks
- Electrical installation
- Thickness measurement
- Non Destructive Testing
 - Magnetic particle inspection level 2 & 3
 - Penetrant inspection level 2 & 3
 - Ultrasonic inspection level 2 & 3

SERVICES & TECHNICAL ASSISTANCE OF

- ASNT NDT Level 3 in RT UT MT PT VT & ET
- PCN UT Level 3
- ISO 9712 PAUT Level 3
- ISO 9712 TOFD Level 3
- PCN PAUT Level 2
- CSWIP 3.1 Welding Inspector
- ISO 9001:2015 Lead Auditor
- BGAS Grade 2 Painting Inspector
- API 510 Pressure Vessel Inspector

« Safety our priority »

TRAINING

- Assembly - Disassembly of fixe and rolling scaffolding
- Mobile crane driving
- Forklift driving
- Boom lift driving
- Defensive driving
- Working at height
- Basic Rigging and slinging
- Construction machinery driving
- Over Head crane driving
- Wearing and using Personal Protective Equipment (PPE)
- Tower crane driving
- Electrical accreditation
- First aid
- NDT Trainings
 - Visual testing Level 1 & 2
 - Magnetic testing Level 1 & 2
 - Penetrant testing Level 1 & 2
 - Ultrasonic testing Level 1 & 2
 - Ragraphy testing (x-ray) Level 1 & 2
- Etc ...

MISSIONS

- Technical Assistance
- Assistance on the conformity pcedures of equipment and installation
- Certification of conformity of equipment and installations with the regulations in force
- Assistance on industrial projects
- Assistance of the operators (inspection plan, follow-up of the treatment of non conformity etc ...)
- Etc ...
